Booking form

How the Ice Factor Program changed my life?

I am a student at Craigmores High School, currently undertaking year twelve study. I am the Captain of the Mulisha Ice Hockey Team, and I would like to take this chance to tell you a little about myself.

I started at Craigmores High in year eight. I was already off to a bad start; I was being extremely disruptive and could not concentrate on work, getting sent out of class nearly every lesson for bad behaviour. My report cards were bad, I would get URL, meaning that the teacher could not assess me because I was never there and never handed up work. Once I made it to year nine, I got worse, wagging most lessons to walk around the streets. What does a teenage boy do around the street? Vandalise property and take drugs. I was suspended from school for wagging and being abusive to others. It was not looking good for me and I knew it. I tried to improve my behaviour but it didn't last long. When I reached year ten, I was being suspended at least twice a week, which was getting me nowhere. Half way through year ten, I was excluded for a term. This just wasted my time, no learning occurred, I was bored and eager to do something but not necessarily school.

When I finally came back to school, my mum and I had a re-entry meeting with Mr Robertson. I mentioned to him that I would like to be on the ice hockey team because I thought it would be good fun, a bit interesting and would be a day off school. Mr Robertson

thought it would be a good idea, so he gave me a chance to prove myself.

So, I went to ice hockey keen to try something new and have a day off school. However, ice hockey has given me so much more than a day off and some hockey skills. I believe that ice hockey has given me personal and team goals. I have something positive in my life to look forward to every week. Ever since joining the ice hockey team, my grades have gone up because I had to have good grades to stay in the team and because I can now see the value of school. The teachers no longer dread having me in their lesson, as I have developed negotiation and communication skills in the ice hockey team which I use with the teachers. Ice hockey has helped me mature and given me the opportunity to develop leadership skills as the Captain. I have become a positive role model within the school. I am still at school and going to get my SACE, which was not where I was headed without ice hockey.

I am going to leave at the end of the year and I want the ice hockey program to continue for other students at Craigmores High that might head in the wrong direction like I was. I would really appreciate your sponsorship for this program. We need to cover the costs of equipment and uniforms for new team members. Hopefully you see the benefit it can bring.

Thank you for reading my story.

Henry Wetton
